MARKING AND PAINTING

- Correct Method for Applying Decals

① Clean model surface with wet cloth.
② Cut each design out of decal sheet and dip them in warm water for 20 seconds.
③ Check with finger tip if design is loose on base paper. If so, place it on proper position on model and slide off base paper leaving design on model.
④ Move design to exact position with wet finger tip, and push out excess water and air bubbles under decal with soft cotton cloth.
⑤ When decals get dry, wipe off with wet cloth excess glue left around decals.
