CONVERSION TO ISRAELI F-15 BAZ

1. Use Aces II ejection seats.
2. The improved Baz can carry Python VI Rafael air to air missile with new launch rail
other F-15 can carry python III with unique curved pylon and special launch rail.
3. Most F-15 exhaust are "turkey feathers"
4. All Improved Bazs and some C/D have round ECM radomes at the point with the horizontal and vertical fins come to end.
