| 14. Wing | 31. Foot command mechanism |
| 15. Pilot seat | 32. Cockpit roll bar (2 pcs) |
| 16. sprayer mechanism (to be positioned on left side) | |

General instructions:

Resin parts should be cleaned of flash, thoroughly cleaned using solvent and washed in detergent. For attaching resin parts use solely cyano-acrylate glue. Transparent parts should be glued using epoxy, white or crystal clear glue.

Notes:

- all gear legs are enforced with wire
- small parts (additional antennas, position lights) should be scratchbuilt.

Special thanks goes to Zoran Jakovljević-Profa
