1:48**SPITFIRE MK IX****INSTRUCTIONS**

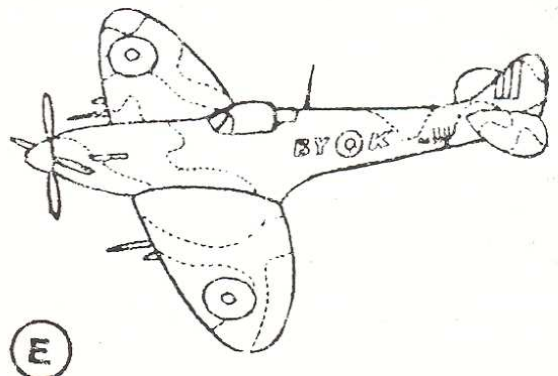

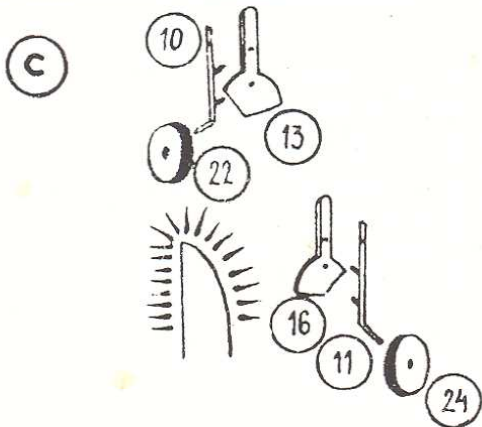

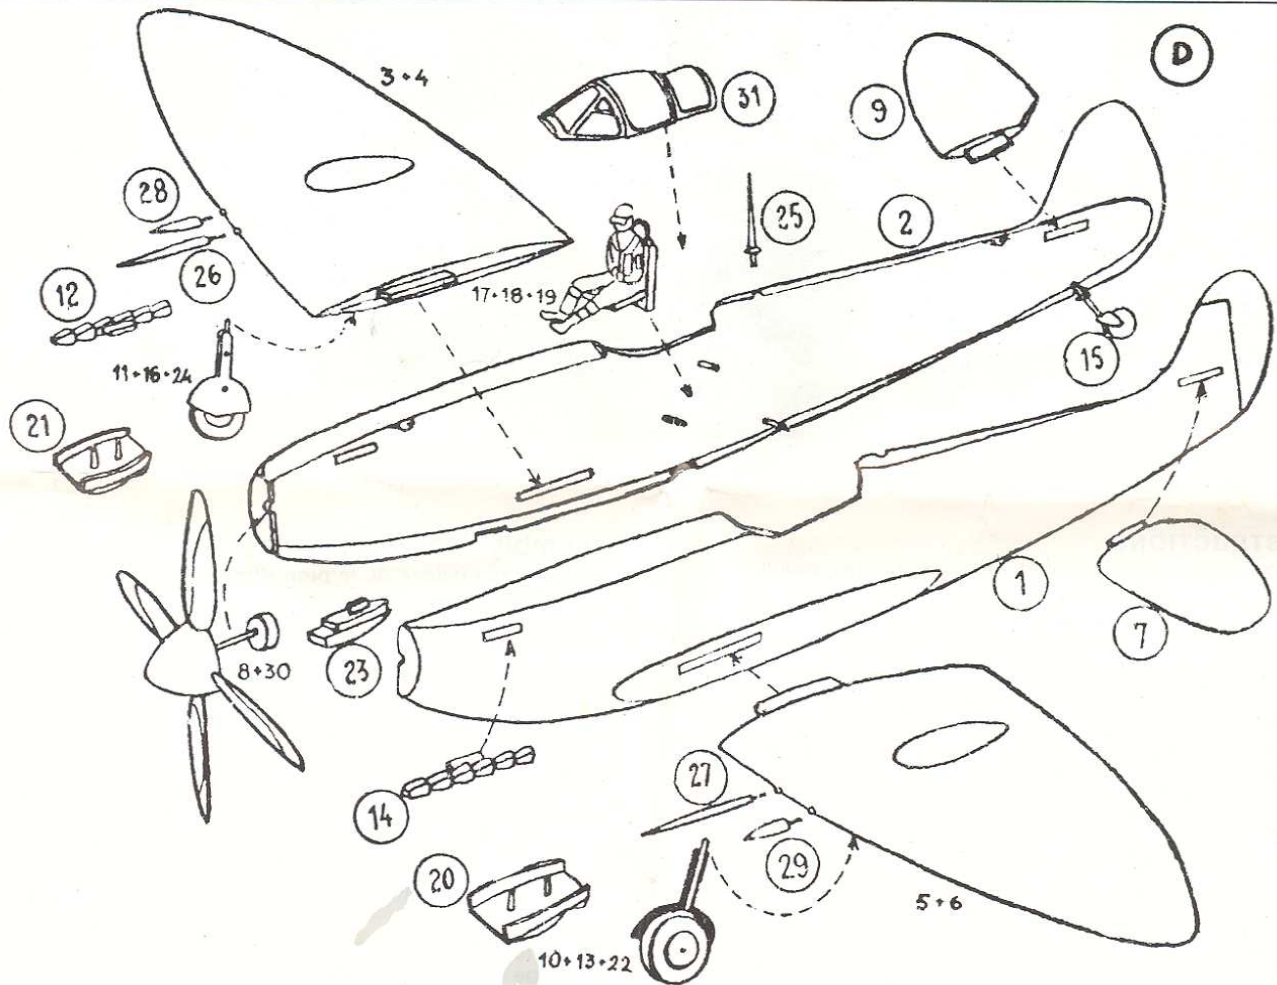

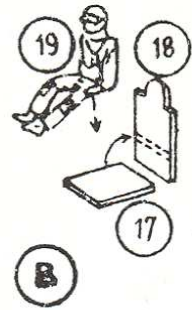

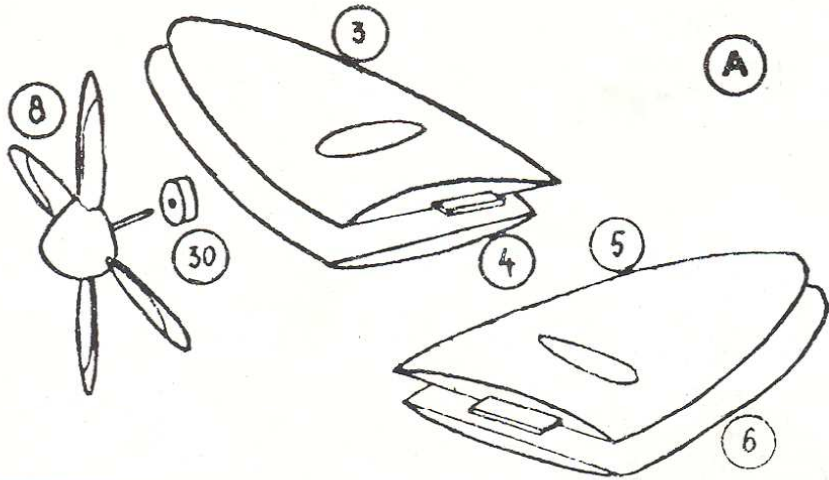

1. Before assembling the airplane, please read carefully the instructions referring the plan.
2. Do not separate all the pieces of the airplane at once but tear one at a time, that which you immediately need.
3. Before spreading the glue on each piece, be certain that you know the exact place where the piece is to be fixed.
4. Please spread a moderate quantity of glue in order to avoid stains on your airplane.
5. When you have assembled the airplane, wait that the glue dries before fixing the decals.
6. Please follow carefully the special instructions concerning the application of the decals.

PARTS LIST

- | | |
|---------------------------------|--------------------------|
| 1. left fuselage half. | 18. Pilot seat's armour. |
| 2. Right fuselage half. | 19. Pilot. |
| 3. Right upper wing half. | 20. Right wing radiator. |
| 4. Right lower wing half. | 21. Left wing radiator. |
| 5. Left upper wing half. | 22. Main wheel. |
| 6. Left lower wing half. | 23. Oil radiator. |
| 7. Right horizontal stabilizer. | 24. Main wheel. |
| 8. Propeller. | 25. Antenna. |
| 9. Left horizontal stabilizer/ | 26. Right gun. |
| 10. Right landing strut. | 27. Left gun. |
| 11. Left landing strut. | 28. Right gun. |
| 12. Right exhaust. | 29. Left gun. |
| 13. Right landing gear door. | 30. Propeller retainer. |
| 14. Left exhaust. | 31. Canopy. |
| 15. Tail wheel. | |
| 16. Left landing gear door. | |
| 17. Pilot seat. | |

Assembly Instructions

- A** Cement prop retainer 30 to prop shaft 8
Cement right wing halves together 3+4
Cement left wing halves together 5+6
- B** Cement pilot seat 17 to armour 18 as shown
Cement pilot 19 to completed seat 17+18
- C** Mount wheel 22 on strut's axle 10 then flatten end with a hot knife
Cement door 13 on strut 10+22
Mount wheel 24 on strut's axle 11 then flatten end with a hot knife
Cement door 16 on strut 11+24
- D** Cement seat and pilot 17+18+19 inside fuselage half 2
Mount propeller unit 8+30 inside fuselage half 2
Cement fuselage halves 1+2 together so that the propeller will rotate freely.
Cement right wing 3+4 and left wing 5+6 to fuselage sides in a 7 angle.
Cement horizontal stabilizers 7,9 to fuselage sides.
Cement exhausts 12, 14 to fuselage sides.
Cement oil radiator 23 to fuselage bottom.
Cement tail wheel 15 to fuselage.
Cement radiators 20, 21 to wing bottoms.
Cement landing gear 11+16+24 to right wing.
Cement landing gear 10+13+22 to left wing.
Cement guns 26, 28 to right wing.
Cement guns 27, 29 to left wing.
Cement canopy 31 to fuselage cockpit.
Cement antenna 25 to fuselage.
- E** Apply decals as shown.
