F336270
 Testors MM 1725
 Humbrol USN2
 Gunze Sangyo H306

F336081
 Testors MM N/A
 Humbrol HU32
 Gunze Sangyo H301

Peanut and Flipper Notes:
 These birds are non-LASTE
 and non-EGI so no "slime
 lights" or GPS antenna.
 The APU exhaust deflector
 must also be removed.
 These older A-10s had the
 older style RHAW system
 so you also want to remove
 the "bugeye" antennas
 from both the nose and the
 tail.

Twobobs' goal is to provide you with the most thoroughly researched decals that money can buy. We go beyond using traditional reference resources and many times speak with the actual aircrews and maintainers of our subject matter. Being modelers ourselves, we understand that there is no substitute for this painstaking research and we are proud to offer, what we feel, are the best decals on the market. If you have any subject matter that you feel should be the next Twobobs creation, let us know. We'll be happy to listen to any and all customer input.
