**WHAT'S OUT THERE?**

1/48th Great Wall Hobby F-15C  
1/48th Hasegawa F-15C

In 2020, the "Vampire Bats" of the 44th Fighter Squadron and Aircraft Maintenance Unit deployed to CENTCOM area of operations and subsequently adorned 12 of their F-15Cs with uniquely distinct nicknames and corresponding nose art. This decal sheet captures the artwork of the deployment, and these jets can be built with the latest and greatest F-15C combat ordnance loadout, to include centerline mounted AN/AAQ-33 Sniper pods.

Stencils are provided for both the Great Wall Hobby and Hasegawa kits and there are enough markings for two complete aircraft.

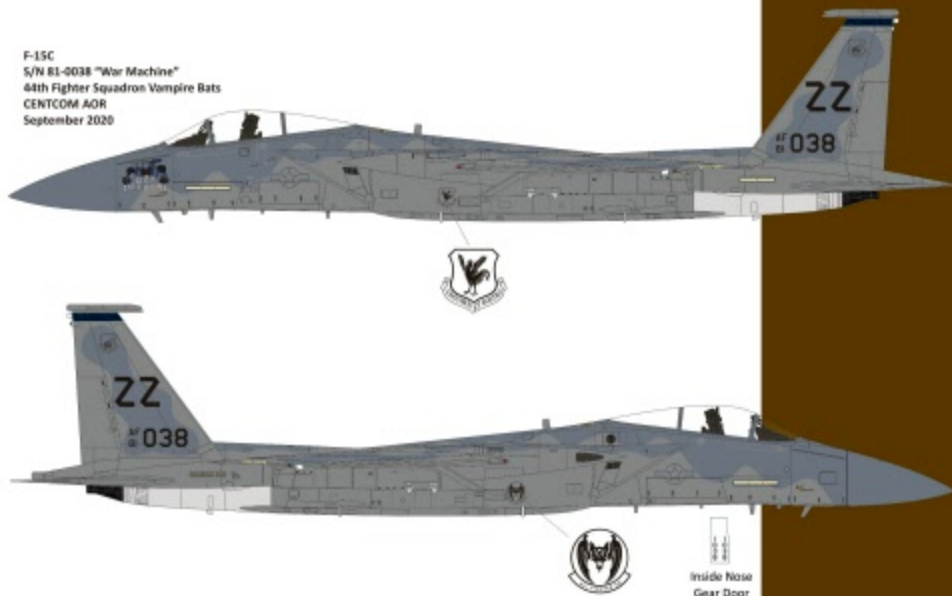

Special Thanks to Mike Cabral for his assistance on reference gathering and nose art drawings.
