F-14A 160365/3-6067, 73 rd TFS, Imperial Iranian Air Force - IIAF; TBF 7 Shiraz, 1978, before the islamic revolution
 During the war with Iraq, this aircraft was credited with at least 11 aerial victories. The standard combat load consisted in 2 AIM-54A Phoenix, 3 AIM-7-E4 Sparrow and 2 AIM-9P Sidewinder AAMs.

F-14A 160318/3-6020, Islamic Republic of Iran Air Force - IRIAF; TFB 8 Khatami, 1987.
 This aircraft was credited with more than 14 kills during the war with Iraq and was also used in the Iranian "Bombcat" trials. All Iranian Tomcats wear standard stenciling, as by the US NAVY..

F-14A 160320/3-6022, IRIAF, TFB 8 Khatami, 1995.
 This Tomcat was credited with at least 7 aerial victories during the war. It was overhauled in 1995 by IACI and was repainted in this new air superiority scheme. All Iranian Tomcats were delivered without the refueling bay doors.

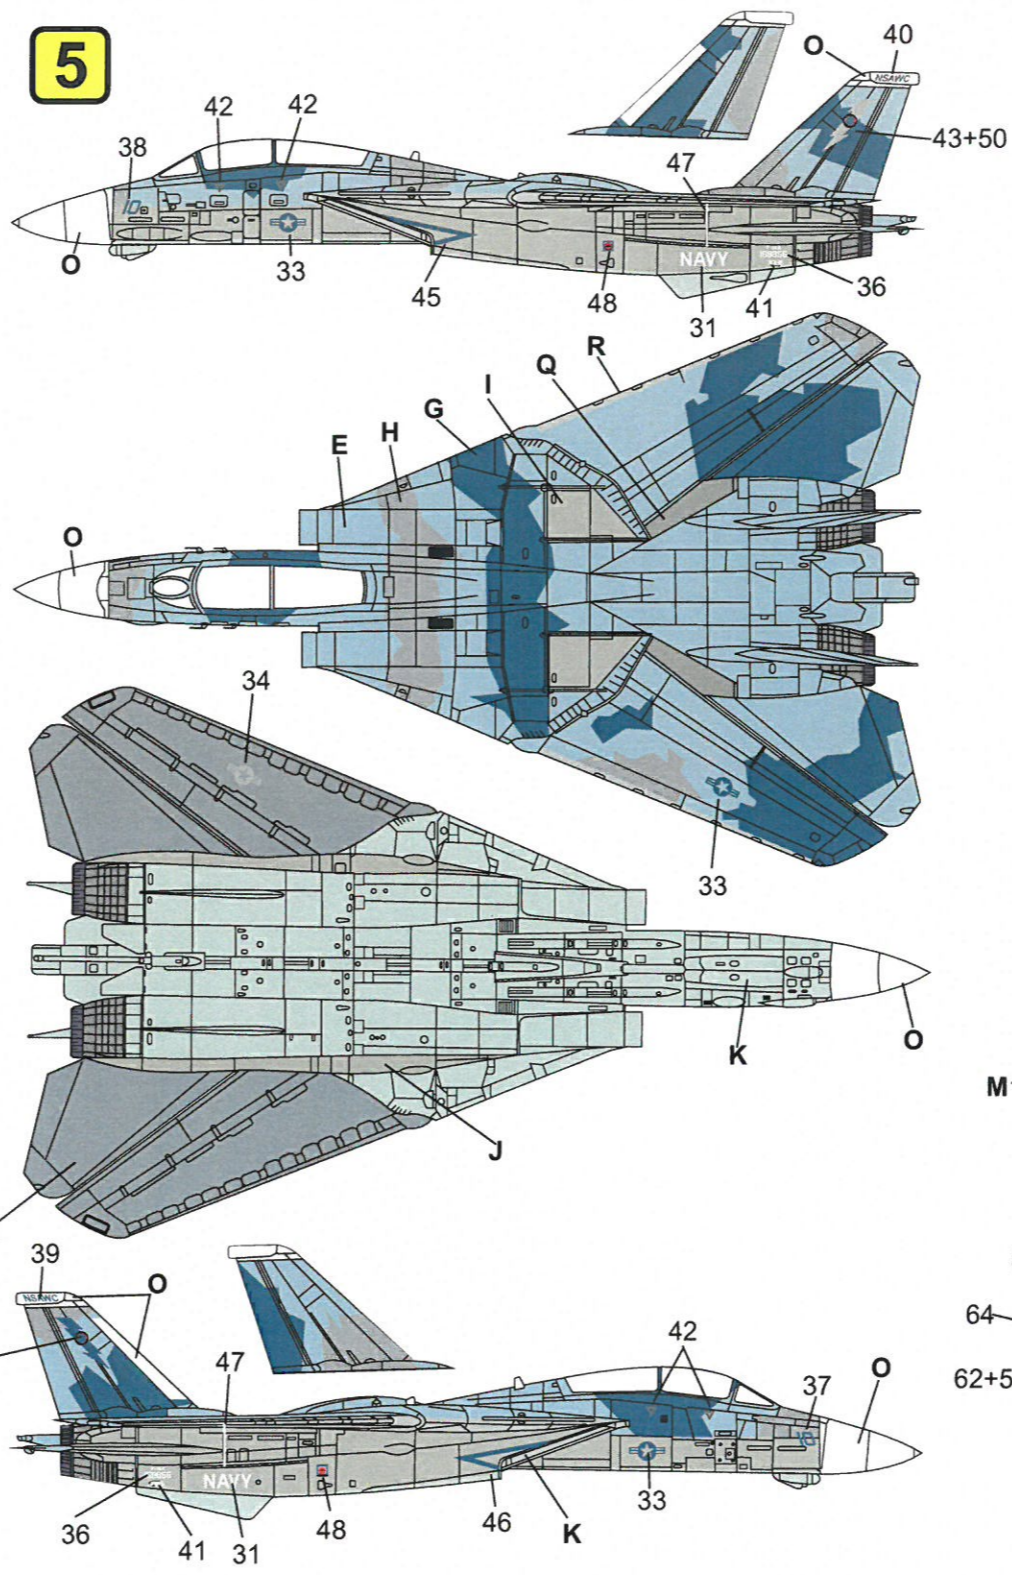

F-14A 160339/3-6041, IRIAF, TFB 8 Khatami, 2003

This aircraft wears the current standard IRIAF air superiority camouflage, applied since 1997 to the F-14 fleet. This jet is armed with 2 AIM-9P Sidewinder and AIM-7 Sparrow Ams. Note standard stenciling.

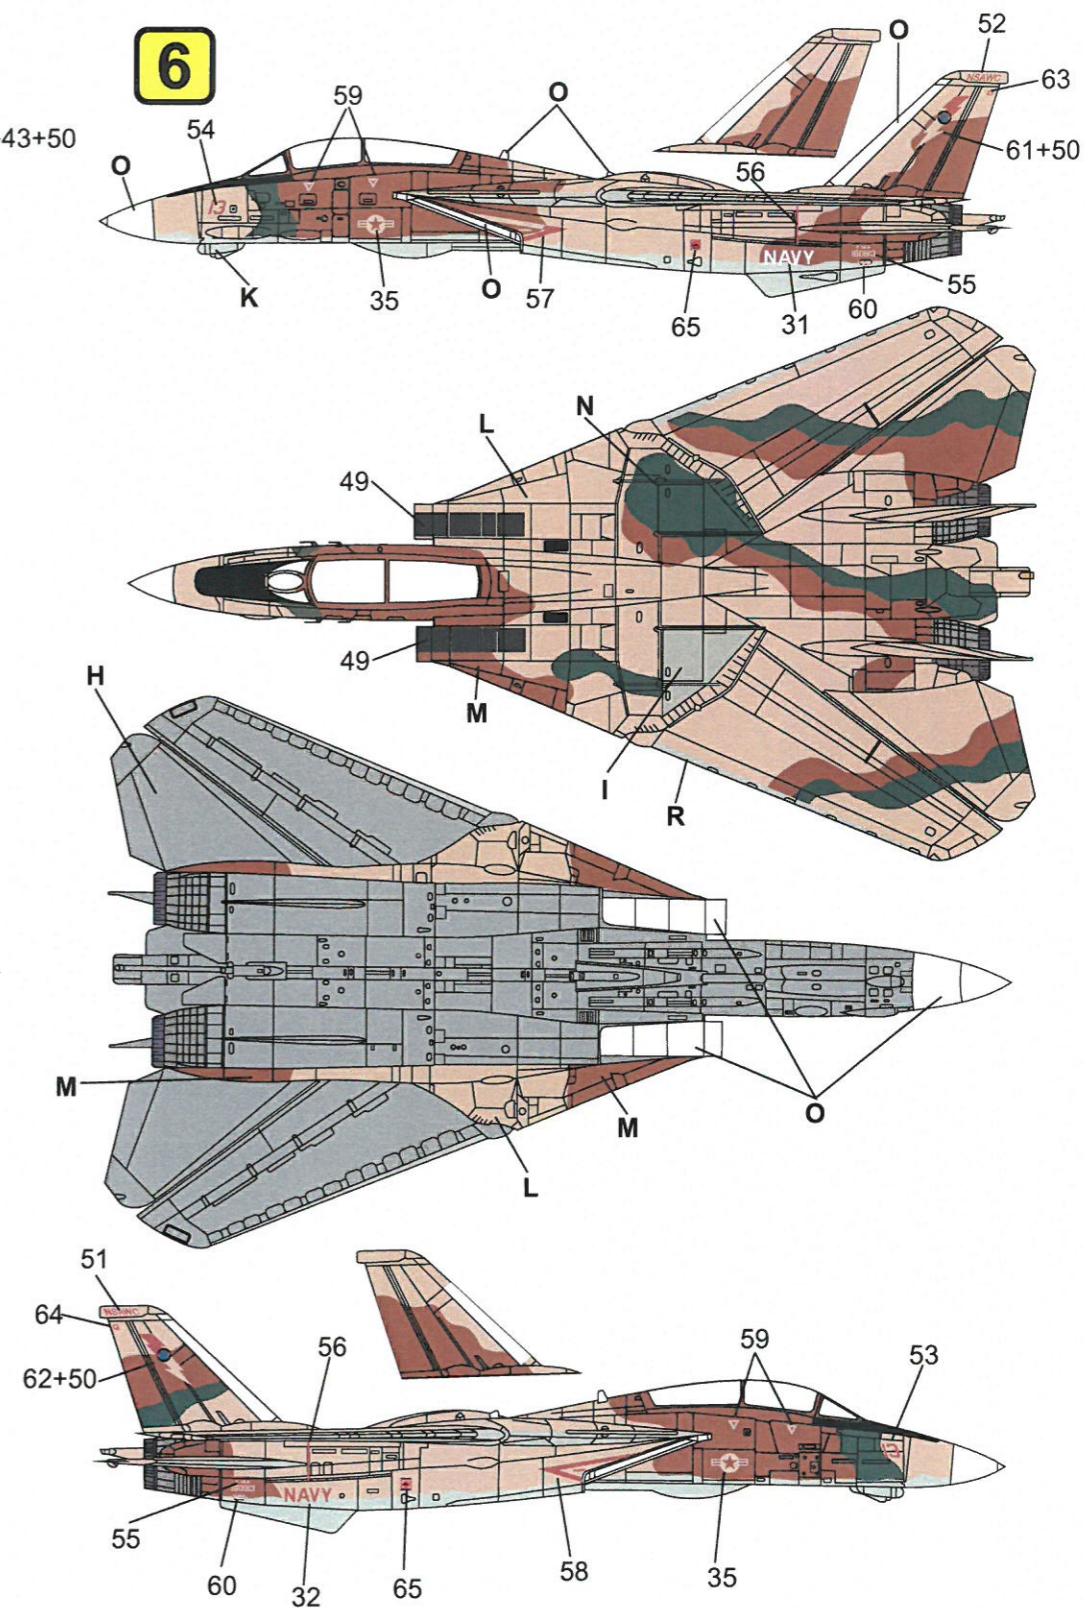

Colors:

A Sand	FS 30400	F Cream	FS 33578
B Dark Brown	FS 30140	G Agresor Blue	FS 35109
C Dark Green	FS 34079	H Light Ghost Grey	FS 36375
D Light Grey	FS 36622	I Dark Ghost Grey	FS 36320
E Light Blue	FS 35450	J Light Gull Grey	FS 36440

F-14A 159855/10, Naval Strike & Air Warfare Center (NSAWC), Us Navy; NAS Fallon, 1998.

The typical "combat load" consists of captive AIM-9L and an ACMI pod. Both "10" and "13" have NACA air intakes behind the M61 cannon fairing.

F-14A 130913/13, Naval Strike & Air Warfare Center (NSAWC), US Navy; NAS Fallon, 2000.

This Tomcat has the modified Phoenix pallets/bomb racks under the fuselage and external fuel tanks installed.
