1990 PONTIAC GRAND PRIX

REVELL, INC. Des Plaines, IL Copyright © 1990 All rights reserved. Made in U.S.A. 7458 R 4200

The striking Pontiac Grand Prix is an impressive performance machine that was shaped in the wind tunnels and proven on the superspeedways. Powered by a muscular 3.1-liter V-6 engine, the potent Grand Prix is fitted with multi-port fuel injection, aluminum cylinder heads, and a five-speed manual transmission that produces driving excitement!

But, acceleration isn't everything, and the Grand Prix SE utilizes a performance-oriented level II suspension to generate world-class handling. It blends four wheel independent suspension, quick-ratio power steering, and an advanced anti-lock brake system that delivers exhilarating handling! The well-appointed interior is fitted with contoured seats, the driver's seat being

equipped with fourteen power adjustments. Even the rear seats are contoured to fit each passenger.

This 1/25th scale model of the sleek Pontiac Grand Prix captures the excitement of this potent performer. Open the hood and study the detailed V-6 motor and 5-speed transaxle. The chassis and suspension are miniature replicas of the real Grand Prix that include the unique three-link rear suspension and simulated composite rear spring. The interior sports four bucket seats and a detailed instrument panel. If you wish, "trick out" your Grand Prix with special aero panels and simulated asymmetric wheels. Molded in gleaming red plastic, this model is an exquisite replica of Pontiac's potent Sport Coupe.
