**Peterbilt FIRETRUCK**

Ein gewaltiger roter Truck rast durch die Straßen von Burnsville im US-Bundesstaat Minnesota seinem Einsatzort entgegen, um wieder einmal die heiße Feuersbrunst zu bekämpfen. Doch dieses ist kein normaler Truck, sondern ein vollständiges Löschfahrzeug mit einem großen Löschwasserbehälter (750 Gallonen Inhalt = 2.840 Liter). Aufgrund von Überalterungsproblemen und Ausfällen beim bisherigen langsamen Fahrzeugpark entschloss man sich in Burnsville, zwei Peterbilt-Sattelzugmaschinen zu Feuerlöschfahrzeugen umzubauen. Ein leistungsstarker Motor (435 PS), ein robuster und langlebiger Fahrzeugrahmen und Aufhängung, sowie ein Aluminium-Aufbau gaben eine solide Basis. Die Bedienungsmannschaft ist in einer separaten Kabine untergebracht. Doch auch technisch gesehen leistet dieser Truck Gewaltiges: Zwei Förderpumpen erzeugen eine Leistung von 5.600 Liter pro Minute, wobei die Löschkanone auf dem Dach eine Leistung von 3.700 Litern pro Minute erbringt. Neben Leitern, Schaummittel und feuerwehrtechnischer Beladung wird auch eine relativ große Anzahl Schläuche mitgeführt. Ein am Heck montierter 5.000 Watt Generator versorgt die großen Flutlichtstrahler mit dem nötigen Saft. Das Gesamtgewicht des Peterbilt Firetrucks beträgt 20 Tonnen.

Peterbilt FIRETRUCK

A heavy red truck races through the streets of Burnsville in the US state of Minnesota to the scene of a big fire. This is no normal truck, but a complete fire-fighting vehicle with a huge water tank holding 750 gallons (2,840 litres). Faced with outdated equipment, permanent corrosion and breakdown problems among their fleet of slower vehicles, the city fathers of Burnsville decided to convert two Peterbilt truck tractors into fire-fighting vehicles. A powerful engine (435 PS), a robust and durable vehicle frame and suspension, and an aluminium superstructure provide a solid base. The crew is accommodated in an independent cab. The technical features of this fire-fighting truck are impressive: Two feed pumps deliver 5,600 litres per minute, with the water cannon on the roof delivering 3,700 l/min. In addition to ladders, foam and other fire-fighting equipment the truck carries also a relatively large number of hoses. A rear-mounted 5,000 W generator provides the power for the big floodlights. The total weight of the Peterbilt Firetruck is 20 tons.
