SU-2 by squadron leader
Senior Lt. Katreen Zelenko

History

Su-2 was a modification of BB-1 plane which included all improvements and changes made in BB-1 construction when serial production started.

Su-2 had a forced engine M-88B, higher flying performance and a navigator's cockpit where gun turret removed. Armament was also strengthened - machine-gun SHKAS for firing in down - back direction and external bombs overload. More than 400 planes were produced. A woman - pilot E. Zelenko flew on one of these planes.
